Prompt:

An innocent Lucifer, depicted as a majestic archangel with flowing silver robes, luminous skin, and glowing eyes of empathy, standing in a celestial hall with columns of light, his wings unfurled in harmony.

Prompt:

Lucifer in his state of divine innocence, a celestial figure with wings of translucent pearl and fire, standing beneath a crystalline sky. His eyes are like twin stars, hands gently cradling a

sphere of pure light, symbolizing his love for the Creator. Around him, glowing feathers drift like snow, as if Heaven itself breathes in rhythm with him.

Prompt:

Lucifer the Morning Star, depicted in ethereal pre-Raphaelite style, draped in flowing silks woven from light itself, standing before a radiant throne of eternity. His six opaline wings stretch outward like a living mosaic of stardust and ivory flame. A garden of crystalline trees blooms around him, each leaf singing in color. The air is sacred silence. The moment is eternal, untainted by pride

Prompt:

Lucifer the first-born light, in the breathless moment before the fall a vision in hyperreal divine surrealism. His form radiates sacred geometry; his wings stretch like fractal universes woven from gold-threaded thought. He stands at the threshold of the Infinite Garden, where light bends like water and colors exist that no human eye has seen. His face bears the serenity of love untested, and the sorrow of destiny unknown. The cosmos itself hums in reverence. Time has not begun, and yet all endings are written in the silence behind his eyes.
